

# zevo™

Home Insect Products that are  
Way Smarter than Bugs

Bugs are Terrifyingly Smart...

So smart - I can leave  
pheromone trails to  
lead my friends  
into your home

So smart - I can see and  
react four times faster  
than humans

So smart - I can  
memorize every  
square inch of  
your kitchen

...But **ZEVO™** is Way Smarter than Bugs  
Bio-selective technology in Zevo Sprays and Traps  
targets the unique biology and behavior of bugs

Nature-inspired  
actives target nerve  
receptors active only  
in bugs, not people  
or pets.

Dual-spectrum  
light and body heat  
attractants lure  
flying bugs  
to their doom.

Over 90% of people are concerned with having bugs in their home, but almost an equal amount are concerned with using traditional insecticide sprays\*
